

# Distance Learning Teacher Cheat Sheet

## Step 1: Create Assignments

- Visit [Explore Content](#) page
- Select content and "Assign to Google Classroom"
- Provide name for assignment, release date and due date

**Hot Tip:** Bookmark your favorite content for easy access.

## Step 2: Assist Students Through Immediate Feedback

- Students enter ASSISTments assignment through Google Classroom
- Answer problems digitally

**Hot Tip:** Attach a video to assignments for extra instructional support

## Step 3: Assess Class Performance

- Click assignment link in Google Classroom
- Assess performance through Assignment Report
- Take note of class, individual problem & student average

**Hot tip:** View Detail Report to check on individual student progress and follow up by email

## Step 4: Analyze Answers Together

- Anonymize report to protect student privacy
- Share the report or summary with your students (and parents!) via email or screenshare, highlighting the sticky points and guiding with videos explanations

**Hot Tip:** Assign Skill Builder problem sets on sticky areas
