Creating curated destinations that empower people to work, learn + heal.

## OUR SERVICES

### WORKPLACE / HEALTHCARE / EDUCATION

Tangram was founded in 1963. Today, we are the leading interiors solutions provider in Southern California and one of Steelcase's top dealerships with offices in Downtown Los Angeles, Newport Beach, Santa Fe Springs, Fresno and Bakersfield. In 2023, Tangram opened its regional headquarters with a new showroom in Dallas, Texas to support the North Texas and West Texas communities.

Over the years we have nurtured a collaborative and people-focused culture because we believe people fuel innovation. That culture has led to the organic growth of five business units which complement our core furniture offering: flooring, fabrication, custom furniture, move + asset management and audio-video design and integration.

#### Furniture Procurement

Tangram Interiors partners with 700+ furniture makers to help you create stylish and functional spaces for offices, schools, and healthcare settings. We work closely with you to match your design preferences, budget, and timeline. By collaborating with a wide range of manufacturers, we can provide high-quality furniture at competitive prices for projects of any size or complexity.

#### CUSTOM FURNITURE

Our partner, Studio Other, designs custom furniture to express your brand in beautifully crafted workplaces. We aim to make your vision a reality, redefining how you work with a unique design experience. Collaborating with creative architects, designers, and brands that embrace uniqueness, we engage clients who are hands-on, risk-takers, and seeking partners to bring their concepts to life.

#### MOVE + ASSET MANAGEMENT

Whether you're relocating within your facility or undergoing a large-scale move, Tangram provides expert Move Management Services. Our on-site project manager oversees the planning and execution of the entire process. With more than 210,000 square feet of company-owned warehouse space in the Dallas area, we have complete control over all aspects—facilities, delivery trucks, asset management technology, and personnel—ensuring a seamless experience for our clients.

#### ANCILLARY SPECIALISTS

Our Ancillary Specialists are a bit like furniture matchmakers—sourcing the comfy and stylish pieces you see in office lounges, meeting rooms, and other casual areas—spaces that aren't your main work areas but still matter. We're talking lounge chairs, sofas, and trendy tables. These specialists know a lot about furniture and use their connections to find what you need. They focus on what you want, how it looks, the cost, and when you need it.

#### ONSITE

Our experts revive old furniture by renewing different materials like wood, laminate, and metal. They're also skilled in refurbishing and reupholstering. We offer cleaning services for furniture, wall coverings, flooring, and seating to eliminate years of wear and tear and bring back the original look and feel.

#### AUDIO / VISUAL TECHNOLOGY

Our Tech team knows how technology boosts communication, aids mobility, improves collaboration, and drives business success. Whether it's HD telepresence boardrooms, surround sound theaters, enterprise-wide streaming, or managing your tech and building systems, we have it all covered.
