

linelube Slideway Oils

Product Description

Premium quality lubricating oils with added tacky, antifling additives for the lubrication of slides on machine tools. The tackifier improves adhesion and prevents the oil from being squeezed off the slideways. It also helps prevent the oil from being washed away by cutting fluids.

Features & Benefits

- Excellent filterability
- Thermally stable
- Good oxidation resistance
- Wide temperature range usage
- Good corrosion protection
- Excellent demulsibility

Applications

Use for lubrication of slideways where smooth, stick-slip-free performance is required or where a tacky adhesive lubricant is required.
