

# Material Safety Data Sheet

According to 1907/2006/EC, Article 31

Printing Date: 09 June 2020

Revision: 14 August 2015

(Page 1 of 3)

## 1 Identification of the substance/preparation and of the company/undertaking

Trade name: **linecube FS8036 Neat Cutting Oil**

Relevant identified uses of the substance or mixture and uses advised against:

- Use of the substance/mixture: Neat Oil Metalworking Fluid

Supplier:

Online Lubricants Ltd.  
Unit 20, The IO Centre, Barking, London IG11 0DR  
UK Tel. +44 (0) 208 507 0123

In case of emergency: **+44 (0) 208 507 0123**

## 2 Hazards identification

Hazardous component:	Cas No	EC No	Index	Risk Phrases	% Weight
Base Oil					70 – 90

## 3 Composition / Information on ingredients

Not Classified as Skin and Eye Irritant under CHIP 3 regulations.

## 4 First-aid measures

<b>Eye Contact:</b>	Immediately flush with clean water for 10-15minutes.
<b>Skin Contact:</b>	Wash off with water. If the use of metalworking solutions gives rise to irritation or skin rashes, possible contamination and/or usage conditions may need to be investigated. After use a lanolin based ointment may be applied. Do not use solvents to clean skin. Contaminated clothing should be laundered before use.
<b>Inhalation:</b>	No potential inhalation risks.
<b>Ingestion:</b>	Immediately rinse mouth with plenty of water (do not swallow). <b>Do not</b> induce vomiting if medical attention can be obtained within a reasonable time i.e. one hour. Seek such attention immediately.

## 5 Fire Fighting Measures

<b>Flammability:</b>	If involved in a fire may emit noxious fumes.
<b>Extinguishing Media:</b>	Foam, Dry Powder, Co2, sand or earth, water fog.
<b>Protective Equipment:</b>	Standard protective equipment.
<b>Products of Combustion:</b>	Combustion can produce a variety of compounds including oxides of carbon & nitrogen; chlorine compounds; water vapour; unburnt hydrocarbons; partially oxidised organic compounds and unidentified organic and inorganic compounds, some of which may be toxic.

# Material Safety Data Sheet

According to 1907/2006/EC, Article 31

Printing Date: 09 June 2020

Revision: 14 August 2015

(Page 2 of 3)

## 6 Accidental Release Measures

Do not allow product to soak into drains or water courses. Contain using absorbent granules, sand or earth and transfer to a suitable marked container. Disposal must be in accordance with local regulations and (in the UK) the Environmental Protection Act 1990. Spillages can be slippery.

## 7 Handling and Storage

**Storage Precautions:** Store in original containers only. Keep out of reach of children (S2).

**Handling:** Avoid contact with skin & eyes. Observe good standards of industrial hygiene.

## 8 Exposure controls/personal protection

**Respiratory Protection:** Unlikely to be necessary unless operations generate vapour, mist or fumes where the exposure cannot be controlled by local ventilation measures.

**Eyes:** Chemical eye goggles should be worn.

**Hand:** PVC or rubber gloves are recommended.

**Skin:** Use protective clothing. Remove contaminated clothing and wash with soap and water.

## 9 Physical and Chemical Properties

**Appearance:** Oily amber liquid Immiscible with water

**Density @ 20°C:** 0.900 kg/m<sup>3</sup> typ.

**Flash Point:** 200°C (closed cup) at 100% volume

## 10 Stability and Reactivity

**Stable under normal conditions. Insoluble in water.**

**Hazardous Decomposition:** Thermal decomposition can produce a variety of compounds. Incomplete combustion may be expected to generate such materials as: partially matter and unburned hydrocarbons; oxides of carbon, oxides of nitrogen; water; partially oxidised organic compounds; and other unidentified organic and inorganic compounds.

**Conditions to Avoid:** Extremes of temperature.

**Materials to Avoid:** Strong oxidising agents; strong acids. May soften some rubbers and other elastomeric sealing materials.

## 11 Toxicological Information

**Eyes:** Contact with the eyes may give rise to irritation.

**Skin:** Exposure to the skin may give rise to mild irritation. Prolonged and persistent contact could lead to skin defatting.

**Inhalation:** Excessive exposure to mists caused by atomising systems may cause irritation to eyes and respiratory tract.

# Material Safety Data Sheet

According to 1907/2006/EC, Article 31

Printing Date: 09 June 2020

Revision: 14 August 2015

(Page 3 of 3)

**Ingestion:** Low order of acute toxicity. Aspiration into the lungs caused by vomiting can be hazardous with possible resultant chemically induced pneumonia.

## 12 Ecological Information

**Persistence & degradability:** The components range are not biodegradable.

**Bioaccumulative potential:** No data available

## 13 Disposal Considerations

Product should be disposed of via an authorised waste disposal contractor in accordance with all local and national regulations. Dispose of empty containers in accordance with local and national regulations. Advice can be obtained from the Waste Regulation Authority whether special waste regulations apply to this product.

## 14 Transport Information

Not Classified as hazardous for road, rail, air or marine transport

## 15 Regulatory Information

**Label for Supply:** Not Classified.

**Hazard Symbol:** N/A

**Risk Phrases:** N/A

**Safety Phrases:** S2: Keep out of reach of children.  
S24/25: Avoid contact with skin & eyes.  
S27/28: After contact with skin remove all contaminated clothing and wash immediately with plenty of water.  
S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.  
S37: Wear suitable gloves

## 16 Other Information

Do not add other chemicals or materials to the product unless recommended. Metal particles can abrade the skin, increasing the potential for irritation to occur, whilst oil and metal contamination can increase the possibility of allergic skin reactions. This product contains mineral oil with a published TLV/OES of 5mg/m<sup>3</sup> as oil mist. It is advisable to control this level below 1mg/m<sup>3</sup> to minimise discomfort and nuisance complaints. The information provided in this data sheet has been compiled in accordance with the requirements of the Chemicals (Hazard information and packaging)

Regulations: Directive 93/112/EC. This data sheet does not constitute an assessment of the workplace risks as required under the provisions of the Health & Safety at Work act and the Control of Substances Hazardous to Health (COSHH).
