The completion of this assessment takes time and resources to be able to obtain all the data, analyze the data, and compile the report. A Community Health Assessment provides and examination of the health status that is used to identify key problems in the community.

**Discussion:**
Amy Campbell – The first quote we got for this Assessment was from another company and was for $54,000.00! Stark County uses this company that we are proposing, and the quote is $16,000.00. But this is just for the Adult Information. Since that, we’ve decided with other community partners, that we need the Youth Risk Assessment also. Our goal is to get this assessment completely funded by donations. We already have some commitments of dollars from Community Partners as follows:
- FQHC - $500.00
- ADAMS Board - $5,000.00

Sean Speedy: How do they gather the information for the Youth part of the Assessment?
Amy Campbell: Through the schools. The Adult survey will be by phone with standardized questions.

Wendy Gotschall – stated she has utilized this company over the last 10 years to do assessments for the hospital and recommends them.
