Approval of Meeting Minutes:

Meeting Minutes:
The minutes of the September 18, 2019 meeting were approved upon a motion by Sue McMillen with a second by Sean Speedy. Ayes: All Nays: None – Motion carried.

Sean A. Speedy Drilling & Mary Passwaters

Sean A. Speedy Well Drilling and Mary Passwaters approached the Board of Health with concerns about her water well that was drilled on her property located at 6155 Macaw Rd. Minerva in Augusta Township. This is the second well drilled by the same driller through a grant through the Carroll County Commissioners. Mary stated that this well, like the last one, is going to cave in also. Sean A. Speedy Drilling is working on this with Mrs. Passwaters and would like a copy of all reports we have on file from her well. We told Mr. Speedy to submit a Records Request form. They are going to try and get a reduction on what she owes for the well since she claims it is unusable. Tom White asked where we were on the Bond Claim on the Well Driller. Sean Speedy said since the driller came back and fixed the well, he was subsequently free and clear.
Sean A. Speedy Drilling

Sean A. Speedy Drilling had concerns to discuss with the Board of Health. He stated that he has heavily chlorinated two wells in the county that came back with E.Coli. You cannot fix a new well by putting a UV light on it. There is a concern of contamination of other wells in the proximity. Mr. Speedy would like to see an Audit of all the UV Light well permits we have permitted and if they were to protect home owners from E.Coli. The CCGHD will work with Mr. Speedy on this audit.

Another incident Mr. Speedy brought to the board concerned a water sample that had been taken that did not pass on one of his wells. The whole system had been reconfigured by the homeowner. He came in here and told us (the office administrator and sanitarian-in-training) what to do about it. He said that we chose not to listen to him on this matter. He then said that we kept him out of the loop about any further action on this well permit until it was approved on June 19, 2019. He doesn’t understand why we did not keep him informed about anything and why we did not do what he said to do as a well driller and why nothing was ever brought up to the Board about this situation. He then asked Wendy Gotschall, Health Commissioner if she cared to comment. Wendy replied, that she did not think he would like her to respond at this point. Dr. Stine told Mr. Speedy that he had already been presenting for 10 minutes and in light of all the other business that needed to be addressed by the board at this meeting, if there are additional matters that he feels he needs to address to the Board, he should do so at a future Board of Health meeting.

Sim assessed and determined that 6 terabytes are the amount needed to be able to back-up all our data on the server which is what determined the price per month.
