Did you know that a **5%** reduction in operating cost could be financially equivalent to a **20%** increase in revenue?

Amazon Business - MaviNovo can securely connect to your Amazon Business account to ensure all purchases are authorized.

HOW DOES IT WORK?

WHAT YOU DO

- You give us your requisition approval process.
- You give us a list of your departments and account codes.
- You give us a list of your suppliers.
- You give us a list of users or set up a SSO.

WHAT WE DO

- Our team does almost all the work for you.
- We set up your process.
- We on-board all your suppliers.
- We set up your users or activate your SSO.
- We train and support all users (including suppliers).

The MaviNovo Platform can save you time and money!

The MaviNovo platform can greatly reduce tedious paper and manual processes. Our intuitive platform can decrease or eliminate receiving paper invoices from suppliers. MaviNovo gives you the ability to proactively control spend and also works with most ERP systems, including Peoplesoft, Jenzabar, NetSuite, etc...

How do you know you are paying competitive prices for services, goods and products?
