Did you know that a **5%** reduction in operating cost could be financially equivalent to a **20%** increase in revenue?

**Freight** is one of the biggest variables in analyzing quotes from suppliers.

Many times package size or unit of measure is difficult to analyze from different suppliers. We make it easy.

Collaborate with us if you have unique requirements.

**The MaviNovo RFQ platform makes it easy to analyze quotes.**

## HOW DOES IT WORK?

### WHAT YOU DO

- Give us a list of your suppliers.
- Give us a list of your users.
- Collaborate with us on any unique requirements.

### WHAT WE DO

- Our team does almost all the work for you.
- Set up all your suppliers.
- Set up all your users.
- Collaborate with you on any unique requirements.
- We train and support all users (including suppliers).

### The MaviNovo Platform can save you time and money!

The MaviNovo RFQ platform provides an easy method to create a request for quotes for suppliers. You can upload items to quote. You can invite any supplier. You can add attachments to suppliers. You can update and resend quotes. All suppliers reply to quotes digitally to make it easy for you to analyze quote responses. Respond by notification are sent to suppliers. Supplier performance is tracked.

*How do you know you are paying competitive prices for services, goods and products?*
