Corn Silage Inoculant

Net wt. 1.10 lb. (0.50 kg) - Treats 500 Tons

Chopper's Choice™ - Corn Silage Inoculant

Directions for Use

- Always follow good management practices: harvest at proper maturity, chop length, processing, and optimum moisture level.
- Carefully follow the applicator instructions.
- Apply Chopper's Choice™ Corn Silage Inoculant at a rate to deliver the contents of 1 jar to 500 tons of silage. One scoop treats 50 tons of silage as harvested.
- Mix to completely dissolve the correct amount of product in a clean container.
- Discard unused solution after 8 hours.

Storage Recommendations

Keep refrigerated until used. Under refrigeration use within 18 months of manufacturing date.
