## **Our MatchStrip Header makes all the difference....**

**Our MatchStrip Header frames the open mesh in 1" double thick fabric that matches body of the curtain. Rustproof grommets are placed through the MatchStrip Header every six inches on center and double reinforced. No more ripped mesh panels. Designed to last thru hundreds of commercial washings! Available on almost all cubicle curtain styles.**

# The “RIGHT FIT”

Getting the “RIGHT FIT” is the key to any successful installation. TWR Professional Installers can make a site visit to verify all curtain dimensions before production. TWR Model Room Curtains are available to ensure the “RIGHT FIT”.
