

**G**od created the family to be the nucleus through which His glory and His character is reflected. As with the Sabbath, the family is the other sanctified institution that God built into a perfect creation. Before sin entered the world, God blessed Adam with a female companion to populate the earth and create an environment where peace and godliness would abound.

However, with the entrance of sin, God's perfect blueprint for humanity was severely altered. Adam and Eve were evicted from their paradise home and the world has not been the same since.

The world become an adverse environment for the marriage and the family. Broken homes, fractured promises, confused children, multiple marriages, divorce, and abuse, have marred the landscape of the family. What God intended to be an uninterrupted blessing has to a great degree become a understated challenge.

In spite of what has been, God's still has a wonderful plan for the restoration of the family and the marriage. God's Word is replete with promises, instructions, and divine power, that, when followed can empower the marriage and family to be a haven of peace, joy, and holiness.

This lesson is designed to introduce you to God's original plan for the marriage and family. As far removed as we are from the perfection of creation, God has not changed. There is still hope and power available and the future of the family that trusts in God and His Word is secure. May your joy be full as you follow God's plan.
