

Standard Event Portable Toilet

We have sourced what we believe to be the best portable toilet unit on the market today and this is the only toilet that we are happy to supply to our Event customers.

All of our event units are specific to events. In other words, we do not put toilets out on building sites and a week later put them out to an event.

We can guarantee that the toilets you receive will be the latest models in our fleet.

All units are supplied with hand sanitising facilities. All consumables are supplied for initial setup, and if you require an ongoing service during your event, we can supply a team of qualified operatives to take care of your welfare requirements.

Features

- High specification product
- Recirculating flush toilet, ideal for when no mains water or waste drainage is available
- Hand washing facilities via hygienic hand sanitiser liquid dispenser
- Sealed tank so no waste is visible to the user
- Ventilation system to promote odourless conditions even in hot weather
- Upgrade options include battery-powered lights with motion sensor
