

## Bog Pod Mini Forklift

**For many years we have utilised small all-terrain forklifts when delivering multiple toilets on site. These vehicles have proved invaluable for the loading and unloading of portable toilets and make it very easy for us to move the toilets around when on the ground.**

Many large events have forklifts on site already but rest assured if you hire from D-tox Group we will not be tying up your valuable time or equipment. Even if you only require a small amount of units we can still utilise our Bog Pod if you think it is required.

- Free Service if needed on all orders over 6 loos
- Chargeable service on deliveries of 5 or less
- Small and highly maneuverable
- If a toilet can fit so can the Bog Pod
- Can travel over dry lawns without damage
- Fully trained and licensed operatives
