

I'm feeling snappy!

Photo and two-way communication

PetExec has increased the capabilities for you to communicate with your pet parents with two-way text messaging.

Use the notifications icon for alerts when you've received a text response.

Cost for Pet Snaps Messaging

The cost to Packmates is \$10.00 a month plus the cost of usage.

You will be able to gauge your costs to determine the expense within PetExec.

PetExec is passing on the actual costs from our text provider, Twilio.

We know you work hard for every penny so we decided to charge only for what you use, without any added markup.

Cuteness overload? Pet Snaps to the rescue!

With Pet Snaps Messaging, the power of communication is in the palm of your hands.

What is Pet Snaps Messaging?

Pictures of pets having fun along with a message is bound to have a huge impact on your pet parents.

Your human customers won't be able to resist responding to your messages. Pet parents can also send back messages in a snap.

Tracking and Logging Messages

The new and improved logs allow you to keep track of the messages and view historical activity. You can search by text type, date range, or phone number to keep track of text activity.

You can also keep track of your usage charges real time, view images included in texts, and even resend texts.

What is Pet Snaps Messaging?

Pet Snaps Messaging is the new and improved texting feature.

It offers image texting, two-way texting, automatic appointment reminders via text, improved logging functionality, and the option to resend texts.

Pet Snaps Messaging includes:

- Photo and two-way text communication
(USA, Canada and available countries)
- Automatic appointment reminders
- Re-sending of SMS messages
- Tracking and logging text messages

How do I add this to my PetExec?

Sign up for Pet Snaps Messaging through your PetExec Maintain Company Info page by selecting:

Maintain Company Info > Purchase Add-Ons.
