

# Spontaneous Application

Thereby, the people, the drone enthusiasts, the engineering masterminds behind Voliro are the success factor to achieve the unthinkable. Currently, many technological challenges are ahead of Voliro. And that is how it should be. Challenges are there to be solved.

Tell us which challenges you can solve for us and why they are important for the future development of Voliro. We know that you are an expert in a specific field. Share this with us and we will check internally how we can involve you in our future planning.

## Perfect fit

A successful candidate for spontaneous applications has a clear understanding why he wants to join Voliro and how he can help to improve the products of Voliro. Moreover, the candidate is motivated to work in a dynamic environment with highly dedicated colleagues. Equality of opportunity is exceptionally important to us. We attract and retain the best qualified individual available regardless of their personal or social background. You will be evaluated based on three different pillars: personal fit, skill set and experiences.

### **Personal fit:**

A great team spirit and the shared vision to change the drone industry is our recipe for success. We are looking for team players who dare to share their opinion and challenge the status quo. Furthermore, you should be as fascinated about robotics and automatization as we are.

*Skill set* and *experience* requirements will depend on the position we can find for you.

## Supporting environment

We encourage our team members to impact the development of the next generation of drones. That is why we promote an open communication culture in which everyone can get involved. Diversity, different opinions and mindsets, are the breeding ground for break-through innovations.

### **Moreover, we offer:**

- A working environment in which personal development takes an important position. Voliro will grow, but you should grow with it.
- Robotics and automation experts and drone enthusiasts as co-workers which are happy to share their knowledge.
- An open discussion culture in which you can impact the path we are walking on. You are the expert in a specific field, and we need your insights and experience for our successful future.
- A wonderful office shared with other start-ups in the heart of Zurich (1min from Central)
- A competitive package including a stock option plan
- Flexibility in working time and work-from-home options

We offer our employees a lot but expect outstanding work. If you are eager to revolutionize the drone industry together with an ambitious team send your CV and transcript to [jobs@voliro.com](mailto:jobs@voliro.com). We are interested in intellectually curious and highly motivated candidates which want to grow in an inspiring and challenging environment. Please reach out to us if you have questions or feel unsure about some requirements.

We are looking forward to meeting you in person and to share with you our challenges and vision.
