

Hygiene Policy

Speak Like A Native staff will be mindful of the need to observe the highest standards of personal hygiene when administering any first-aid treatment.

Personal Hygiene

In all circumstances, staff will adhere to and ensure that children carry out the same routines.

- Washing hands before and after handling food and going to the toilet
- Covering cuts and abrasions while onsite
- Taking any other steps which are likely to minimise the spread of infections
- Wash hands prior to and after first aid

Dealing with spillages

Spillages of substances likely to result in the spread of infections will be dealt with rapidly and carefully. Blood, vomit, urine and faeces will be cleaned up immediately and disposed of safely and hygienically by double bagging and taken out of the setting. Staff will wear disposable plastic gloves and an apron while using bleach or disinfectant solution, and wash themselves thoroughly afterwards. Children will be kept well clear while such substances are being dealt with.
