

KEEPING FRANCA SAFE

As things change daily and can change rapidly we wanted to take this opportunity to share some of our current COVID safety procedures. We also will be implementing even stricter voluntary policies to further safe guard and assure our staff, friends and valued customers that we are doing everything we can to assure a safe environment at Franca.

- » Franca hand sanitiser throughout the whole venue
- » All staff and guests are required to sanitise on entry
- » All staff and guests will get their temperature taken upon entry as extra precautionary measure
- » Daily staff health checks
- » QR check-in for all guests
- » All staff will be wearing medical grade face masks as a voluntary precaution
- » Each service and day a deep clean to a even higher sanitary standard and will be completed by outside contractor
- » Each seating all menu's, tables, etc will be sanitised before the next group of guests
- » We have reduced our capacity below what we are legally are permitted to have for the next month, again as a voluntary safety measure
- » Will not be accepting groups larger then 10 pax for the time being
