

Retail Plus

Pall-Ex's retail plus service enables you to support high-street stores and residential addresses with a palletised freight solution.

The freight market has developed over the last few years, and our customers expect freight to be delivered in the same way as parcels and smaller consignments. The Retail Plus service acts as a bridge to support customers' freight expectations but also to ensure everyone remains safe and injury free.

Retail Plus is an across the threshold service which allows customers to choose the delivery location of their consignment. This includes inside a shop or residential building, room or floor of choice and stockroom delivery. The service also enables the membership to focus on their CSR responsibilities as all packaging including the pallet needs to be removed from the delivery location.

Surcharges for the service are:

- £25/ €30 per pallet, for ground floor delivery
- £35/ €42 for 1st floor or basement delivery

Any pallet that needs to be delivered outside of the two above options is subject to health and safety regulations, the weight of the pallet and any restrictions. These deliveries are at the discretion of the delivering depot and would be price on application (POA). Please communicate any additional distribution needs to the relevant depot promptly, by agreement only.

Benefits to customers

- ▶ Valuable reduction of carbon footprint
- ▶ Improved stock room space management
- ▶ Reduced health and safety risk

Terms and Conditions:

- Each pallet must weigh less than 500kgs
- Individual boxes/cartons/items must weigh less than 20kgs and come within the current manual handling regulations
