Introduction. This document has been developed to help suppliers understand the quality requirements necessary to ensure a successful relationship with SHERWOOD AVIATION. Communication and cooperation are key elements in achieving these high standards. SHERWOOD AVIATION expects suppliers to have the following basic business principles: The supplier shall:

- Ensure that materials and services are produced in conformance to the required standards, and SHERWOOD AVIATION will receive defect-free product, on time, at the agreed upon terms.

- Conduct operations in conformance with, or exceeding, all applicable environmental laws and regulations of the jurisdictions in which the supplier does business.
- Ensure all products and materials supplied meet applicable product environmental compliance requirements.
- Embrace and comply with socially important values, principles and guidelines.

“Buyer” shall mean SHERWOOD AVIATION, “Seller” and/or “Supplier” shall mean the party with whom Buyer is contracting and to whom Buyer has issued the Purchase Order (“Order” and/or “PO”).

This Order constitutes Buyer’s offer to Seller and is expressly made conditional on Seller’s acceptance of Buyer’s terms and conditions only. Any additional, different, or inconsistent terms proposed by Seller are specifically rejected, unless otherwise expressly agreed to in writing and signed by an authorized representative of Buyer. Seller shall have accepted this Order by issuance of its acknowledgment, commencement of performance or delivery hereunder, or Buyer’s acceptance, payment or use of any Goods, products, materials, components, articles, parts, services, or other property of Seller subject to this Order (collectively “Goods”). No revision to this Order shall be valid unless in writing and signed by an authorized representative of Buyer.

Packing and Shipment. Seller agrees to process, package, and ship all Goods in conformity with any purchase specifications provided with the Order. All packing shall be at Seller’s expense, in suitable containers for protection in shipment and storage. Packing must conform to applicable carrier regulations. Packing lists shall accompany each shipment, showing Buyer’s Order number and description of Goods. Goods shall be packaged in a manner to protect from loss and deterioration. Unless otherwise stipulated by Buyer, all Goods shall be shipped to the destination or point of delivery specified in the Order. Title and risk of loss of all Goods subject to this Order shall remain with Seller until delivery and acceptance of Goods by Buyer.

Delivery and Title. Time is of the essence for the delivery schedule for this Order. Seller shall deliver all Orders for Goods on time. Seller will be responsible for any penalties incurred due to delayed deliveries. The delivery date shall be the date designated by Buyer in written material releases or other writing. If delivery of Goods is delayed beyond the time indicated herein for any reason, Buyer reserves the right without liability (in addition to its other rights and remedies) to cancel this Order by written or verbal notice confirmed in writing (which notice shall be effective when received by or communicated to Seller). Upon such cancellation, as to any of the Goods not shipped, Buyer, at its sole discretion, may decide to purchase substitute Goods elsewhere.

Capacity. Seller represents that the production capacity quoted to Buyer is based on a tooling and production plan capable of supplying Goods to support Buyer’s requirements.

Price. Seller represents that any price or prices specified in this Order do not exceed Seller’s current selling prices for the same or substantially similar Goods. Unless otherwise stipulated in

Unless otherwise noted in the Order, SHERWOOD AVIATION's standard payment terms are Net 30. Any time period applicable for Buyer to pay shall begin at time of Buyer's receipt of conforming Goods. Termination for Convenience. Buyer may, by notice in writing, terminate this Order or work under this Order for convenience and without cause, in whole or in part, at any time, and such termination shall not constitute default. In the event of partial termination, Seller is not excused from performance of the non-terminated balance of work under the Order. In the event of termination for convenience by Buyer, Seller shall be reimbursed for actual, reasonable, substantiated and allowed costs, plus a reasonable profit for work performed to the date of termination. Buyer may take immediate possession of all work so performed upon written notice of termination to Seller. Seller's obligations, including but not limited to obligations under the warranty, proprietary rights, infringement, and indemnity against claims provisions, shall survive such termination.

Termination for Default. Buyer may, by notice in writing, terminate this Order in whole or in part at any time for Seller's breach of any one or more of its terms, for failure to make progress to endanger performance of this Order, or failure to provide adequate assurance of future performance. In the event of partial termination, Seller is not excused from performance of the non-terminated balance of work under the Order.

Force Majeure. Neither Buyer nor Seller shall be liable for failures or delays that arise out of causes beyond their reasonable control and without their fault or negligence. Such causes include acts of God or of the public enemy, acts of the Government in its sovereign or contractual capacity, fires, floods, epidemics, terrorism, quarantine restrictions, strikes, freight embargoes, and unusually severe weather. In the event that performance of this Order is hindered, delayed or adversely affected by causes of the type described above ("Force Majeure"), the party whose performance is so affected shall so notify the other party's authorized representative in writing and, at Buyer's option, this Order shall be completed with such adjustments as are reasonably required by the existence of Force Majeure or this Order may be terminated for convenience by Buyer.

Disputes. Any controversy or claim that may arise out of or in connection with this Order that after good faith negotiations cannot be resolved to both Parties' mutual satisfaction may be resolved by submitting the claim to a court of competent jurisdiction. Pending resolution or settlement of any dispute arising under this Order, Seller shall proceed diligently as directed by Buyer with the performance of this Order.

Buyer's Property. All drawings, tools, fixtures, materials, and other items supplied or paid for by Buyer shall be and remain the property of Buyer. All such items shall be used only in the performance of work under this Order unless Buyer consents otherwise in writing. Seller shall have the obligation to maintain all property furnished by Buyer to Seller and shall be responsible for all loss or damage to said property except for normal wear and tear. Seller warrants that all Goods furnished under this Order shall conform to all specifications and appropriate standards, will be new, and will be free from defects in material or workmanship. Seller warrants that all Goods furnished hereunder will be merchantable and will be safe and appropriate for the purpose for which Goods of that kind are normally used. If Seller knows or has reason to know the purpose for which Buyer intends to use the Goods, Seller warrants that such Goods will be fit for such purpose. Inspection, test, acceptance or use of Goods furnished hereunder shall not affect Seller's obligations under this warranty, and such warranty shall survive inspection, test, acceptance, and use. Seller's warranty shall run to Buyer, its successors, assigns and customers, and users of products sold by Buyer. Seller agrees to replace or correct defects of any Goods not conforming to the foregoing warranty promptly, without expense to Buyer, when notified of such nonconformity by Buyer, if Buyer elects to provide Seller with an opportunity to do so. In the event of failure of Seller to correct defects in or replace nonconforming Goods, Buyer, after reasonable notice to Seller, may make such corrections or replace such Goods and charge Seller for the costs incurred by Buyer in doing so. Seller shall be liable for and save Buyer harmless from any loss, damage, or expense whatsoever that Buyer may suffer from breach of these warranties.

Inspection and Acceptance. All Goods are subject to Buyer's inspection, testing and approval, both at Seller's facility and Buyer's point of destination. Buyer reserves the right to reject and refuse acceptance of any Goods which do not comply with all the terms of this Order. Acceptance, payment, use, or resale of Goods by Buyer shall not release Seller of any of Seller's obligations, representations, or warranties hereunder. Payment for any Goods shall not be deemed an acceptance hereof.

In the case of any defective or damaged Material, including but not limited to non-compliance with Seller's Quality System requirements, Seller agrees to initiate any required corrective action within a timely manner from the date that Buyer request such action by performing proper root cause analysis and submitting an appropriate corrective action plan. Failure to respond to corrective actions may disqualify the Seller from being an approved supplier.

Buyer shall have the right by written order to suspend work or to make changes from time to time in services to be rendered or the materials to be furnished by Seller hereunder or the delivery date. If such suspension or changes cause an increase or decrease in the cost of performance of this Order or in the time required for its performance, an equitable adjustment shall be negotiated promptly, and the Order shall be modified in writing accordingly. Any claim by Seller for adjustment must be asserted in writing within five (5) days from the date of receipt by Seller of notification of the change or suspension and shall be followed as soon as practicable with specification of the amount claimed and supporting cost figures. However, Seller shall not be excused from processing the Order as so changed by Buyer pending resolution of any claim made by Seller for adjustment.

Seller warrants that all work, items, materials, equipment, or Goods provided by Seller pursuant to this Order, which are not of Buyer's design, shall be free from claims of infringement (including misappropriation) of third party intellectual property rights, and that any use or sale of such items
