

ImpactMapper helps groups tell their impact stories with data and share the stories that matter most.

We work with the top brands that value human rights and social justice. A few of our amazing clients include Malala Fund, IKEA, Chanel Foundation, UNWomen, UNDP, Oxfam, Equality Fund, Fund for Global Human Rights, etc.

We are looking for a sharp, creative, and driven sustainability, human rights, and social impact evaluation expert to support our amazing roster of clients, from UN agencies, foundations, nonprofits, corporates and impact investors to facilitate the communication and data visualization of their social impact.

Your Role:

- Be responsible for leading research and evaluations for impact reports and sustainability reports for a wide range of clients.
- Work collaboratively with clients to develop or refine their evaluation metrics, KPIs, and Theories of Change, and implement these using the ImpactMapper tool
- Support clients with advising around their data collection activities, such as developing a clean database of grants and/or investments, support creation/revision of data collection tools such as surveys, grantee or company reports, and qualitative data analysis
- Engage in research on indicators for ESG and impact investors
- Help organizations share their impact stories through data

Who you are:

- Creative, self-starter
- Possesses extensive knowledge of monitoring and evaluation in international development sectors and/or CSR or impact investing spaces
- At least 5 years working in the areas of gender equality, human rights, sustainability, ESG research space
- Strong attention to detail
- Project management skills

- Is systematic and has the ability to focus on a dataset (quantitative or qualitative reports) for many hours to clean and code data and to track data irregularities, paying attention to details
- Has strong qualitative and quantitative analytical skills
- Has strong written and verbal communication skills, including the ability to train clients, teach workshops and prepare reports to present data findings to both technical and non-technical audiences
- Has the ability to manage your own time and deadlines and be efficient in a remote working team environment

Bonus Points:

- Business level French or Spanish
- Social media marketing skills
- Storytelling

Other details:

- This is a 1/2 to full-time position
- (Open to contractor project basis as well for the right candidate)
- This position is 100% remote

Pay: Between \$50,000- \$75,000 FT based on experience
