Office 365 is your complete office in the cloud.

At its heart is Office itself—the familiar Office applications businesses use everyday—now offered as a cloud service, so it’s always up to date. But Office 365 is also so much more. It’s about bringing enterprise-grade services to organizations of all sizes, from online meetings to sharing documents to business-class email.

Office 365

- Always up to date.** Never buy a new version of Office again!
- Each user can install Office on up to **5 PCs or Macs.**
- Save to the cloud** for backup and anywhere access.
- Use Office on your **smartphone and tablet.**

Business-class email Large, 50GB mailboxes that can send messages up to 25MB in size, with contacts, shared calendars, and spam and malware protection that stays up to date. Built with Exchange email technology, the leading email solution for business around the world. Use your own custom domain for your email address, connect with Outlook for fully featured offline support, and access via the web through any modern browser. Available on your PC or Mac, as well as Windows Phone, iPhone, Android, and Blackberry devices.

Online meetings Hold scheduled or ad hoc online meetings for up to 250 participants, with screen sharing, audio and video, virtual whiteboards, polls, and shared notes. Partners and customers can fully participate through any HTML5 browser.

Online document storage and file sharing 1TB of space in the cloud to store, backup, and easily share files. Files are accessible from almost any device, and can be synchronized offline and made available without an Internet connection.

Private social networking and collaboration A social network that helps your company stay connected, share information across teams, and make faster, more informed decisions.

Technical support Telephone support for setup and deployment issues, as well as online answers, how-to resources, and connections with the Office 365 customer community for additional help.

Simplified IT Management Reduce headaches by reducing your IT infrastructure. Content lives safely in globally distributed datacenters with continuous backup and disaster recovery abilities.

Financially-backed SLA Get peace of mind knowing your services are available with a financially-backed 99.9% uptime service level agreement.

Office 365 and the cloud changes how work is done...

Get work done from anywhere Wherever your people are, online or offline, they can get to—and work with—the most up-to-date versions of the files and tools they need to get things done, and on virtually any device.

Work better together—simply Office 365 offers business-class email, shared calendars, IM, web conferencing, and access to the most up-to-date documents stored in the cloud. You can work together in real time without compromising security.

...and how companies consume IT.

Reduce your capital expenditure Office 365 is available as a simple monthly subscription. Avoid large up-front costs for new software while moving the cost of IT from capital to operating expense.

Be always up to date Since Office 365 is in the cloud, it is always up to date. No patches or software upgrades necessary. Microsoft is adding new value and capabilities on a monthly basis.

Cut hardware and energy costs Without servers to run for email, websites, and document storage, you can reduce energy costs and save by no longer purchasing new server hardware.

License per user Simplify licensing while providing each user access to business-critical technology on 5 PCs/Macs and 5 mobile devices. Save money when compared to traditional, per-device licensing.

Scale your business quickly Office 365 grows with you—adding a new user is as simple as buying an additional license.

License what you need Office 365 provides many plans to fit the right capability needs and price points for each user in an organization.
