\*These pianists have recorded the arrangement by Vladimir Horowitz. Andsnes and Browning perform their own versions, similar in some places to that of Horowitz. Atamian, Janis, and Bar-Illan, as well as a number of other pianists, all make minor additions/emendations to the score.

\*\*A recording on the Concert Artist CD label, purporting to be by Joyce Hatto is actually a pirated recording taken from the CD of Michele Campanella. Thus the listed recording date of January 8, 1996 is also fictitious.

\*\*\*Plays the original version of Baba-Yaga and/or Great Gate (also incorporated into the Horowitz version)

\*\*\*\*Romanovsky (1873-1942) holds the distinction of having made the earliest, as far as is known, recording of *Pictures*. Because of the length of *Pictures*, the work is contained on two different rolls.

+Schultheis is the youngest pianist in the IKVA list, having performed this recording just before his 13<sup>th</sup> birthday.
