

## React Native Developer (m/f/d)

We are looking for a passionate **React Native Developer (m/f/d)** with the energy and drive to join us on our journey in digitizing & modernizing club management, not only in Germany but in the entire DACH region.

### What is Kurabu?

Kurabu is Japanese and means “to unite” or “to combine”. We stay true to our name and combine powerful club management with a modern member platform, accessible on the web and as a mobile app. Our goal is to help existing clubs or communities transform in a world where expectations from employees and members have dramatically changed in the last 10 years. Currently we are focusing on serving sport clubs. At Kurabu we are not a team because we work together. We are a team because we respect, trust, and care for each other!

### Your role at Kurabu:

- Take complete ownership of our React native mobile applications
- Maintain and develop code and automated tests to production within a short development cycle in the Continuous Integration and delivery environment
- Optimize applications for maximum speed and accessibility

### Who we are looking for:

At Kurabu, we are looking for energetic, authentic, and determined people who interpret opportunities as challenges rather than problems. The perfect candidate values structure but thrives in the fast-paced environment of a startup – genuinely believing in the mantra of "people over processes." The candidate must be a team player who is able to see the bigger picture and willing to take ownership, with the help and feedback of her/his colleagues.

- You are a dedicated self-starter who has experience in maintaining and developing digital products
- You have a minimum of 1.5 years of experience with React Native, preferably in an agile environment
- At least a Bachelor's degree in Computer Science, Business Informatics, or other relevant fields
- Passion for agile software development, product discovery, and continuous delivery
- High aspirations for quality, balanced with a good sense of pragmatism
- Effective communication (verbal and written) in English

**What we offer you:**

We are a young, dynamic, and international team of passionate people and an open-minded working culture. Our strategy is to attract the best people and provide the best working culture to inspire our teams to live our company values. We believe that employee happiness drives company success and therefore we rigorously embrace and develop our company culture.

As Product-Manager at [Kurabu](#) you will get a competitive salary, a new Apple MacBook, and you have the chance to participate in forming the future strategy of the company. You will have complete responsibility for the product and business-planning process across cross-functional teams of the company.

If you feel we are a good fit for your future, [get in touch!](#) We move quickly and will make the recruitment process as smooth as possible. Of course, all people are equal for us! Nationality, gender, age, religion or skin color do not matter to us!

We look forward to receiving your application!
