Product Owner (m/f/d)

We are looking for a rockstar **Product Owner (m/f/d)** with the energy and drive to join us on our journey in digitizing & modernizing club management, not only in Germany but in the entire DACH region.

What is Kurabu?

Kurabu is Japanese and means "to unite" or "to combine". We stay true to our name and combine powerful club management with a modern member platform, accessible on the web and as a mobile app. Our goal is to help existing clubs or communities transform in a world where expectations from employees and members have dramatically changed in the last 10 years. Currently we are focusing on serving sport clubs. At Kurabu we are not a team because we work together. We are a team because we respect, trust, and care for each other!

Your role at Kurabu:

- Collaborating with prospective users and clients to understand and anticipate their needs, and translate them into product requirements and user stories
- Constant and dedicated focus on customer satisfaction
- Managing the product backlog and prioritizing them based on changing requirements
- Monitoring and evaluating product progress at each stage of the process, including design, development, and QA
- Organizing and participating in all Agile/Scrum meetings
- Balancing technical requirements, user needs, and stakeholder input to create a product roadmap
- Undertake research to not only understand the market but also for any suitable technical solutions to requirements.
- Work closely on a daily basis with the Founders

Who we are looking for:

At Kurabu, we are looking for energetic, authentic, and determined people who interpret opportunities as challenges rather than problems. The perfect candidate values structure but thrives in the fast-paced environment of a startup – genuinely believing in the mantra of "people over processes." The candidate must be a team player who is able to see the bigger picture and willing to take ownership, with the help and feedback of her/his colleagues.

- You are a dedicated self-starter who has experience in leading a cross-functional team
- You have at least 1.5 years of experience as a product owner or equivalent. Experience in the fast-paced tech start-up life is a plus!
- High aspirations for quality, balanced with a good sense of pragmatism and hands-on mentality
- Effective communication (verbal and written) in English; Existing German language skills (B2)
- Nice to have a Bachelor's degree in Computer Science, Business Informatics, or other related fields

What we offer you:

We are a young, dynamic, and international team of passionate people and thus have an open-minded working culture. Our strategy is to attract the best people and provide the best working culture to inspire our teams to live our company values. We believe that employee happiness drives company success and therefore we rigorously embrace and develop our company culture.

As Product-Owner at **Kurabu** you will get a competitive salary, if needed a MacBook, and you have the chance to participate in forming the future strategy of the company. You will have complete responsibility for the product and business-planning process across cross-functional teams of the company.

If you feel we are a good fit for your future, **get in touch!** We move quickly and will make the recruitment process as smooth as possible. Of course, all people are equal for us! Nationality, gender, age, religion or skin color do not matter to us!

We look forward to receiving your application!
