Before You Start...

Sign into FreightPath

Log in at app.freightpath.io or create a new account here if you haven't done so yet.

Hover to the Shipment Page

Once you're logged in, click on the truck icon in the left menu to get to the Shipments page.

Locating Your Shipment

Selecting Shipment from Load Board

Identify the shipment dispatched to carrier.

Entering the Shipment Portal

Once you have pulled up the shipment, hover over actions and click. Select "Share" from the drop-down options.

Sharing Link with the Customer

Shipment Link

Clicking on "Share" will prompt a small box which will contain the shipment details link for both the customer and the carrier. Copy respective link to share with carrier.

Carrier Portal

The carrier will be able to see details relating the shipment such as, Origin, Destination, Bill of Lading, Contact Information, and Signatures.

Carrier Accepting Shipment

Accepting Terms & Conditions

Once carrier has reviewed shipment details, they must click on the box at the top of the page to acknowledge "Terms & Conditions".

Accepting Shipment

Once the "Terms & Conditions" have been accepted, the carrier will be able to accept the booking and dispatch it to their driver through the email portal on the top of the page.
