

# Cleanpower 50

## Special cleaner for tough oily stains

- ✓ Removes stubborn combustion deposits, oils, fat and encrustations in oil coolers, process cooling systems etc.
- ✓ Fast and easy application
- ✓ Safe, non-flammable, water-soluble

**Cleanpower 50** has been developed for the toughest dirt such as combustion residues, oils, fats, resins, coal residues.

**Cleanpower 50** cleans circulating cooling systems, heat exchangers of steam turbines, oil coolers made of iron and steel and other metals. For non-ferrous metals, the product is not suitable!

**Cleanpower 50** can be used in circulation or in connection with the **CleanTower-Optisystem 4000**, in a dilution from 1:20 to 1:40 with cold or warm water, depending on the type of contamination, for machine maintenance, for turbine/boiler houses. The product contains anti-foam additives.
