

The TT01 table is a modern take on the classic trestle table – an exploration of its simple silhouette and nature of convenience. The angular lines created by the legs are balanced through the horizontal plane of the table top, retaining visual balance in the design.

Composed of a slim table top and a pair of angled legs, TT01 is designed to disassemble with ease. The legs are fixed into holding blocks, which easily slot into matching negative spaces on the underside of the table. Through its versatility and sturdiness, TT01 easily accommodates a number of different environments.

Materials

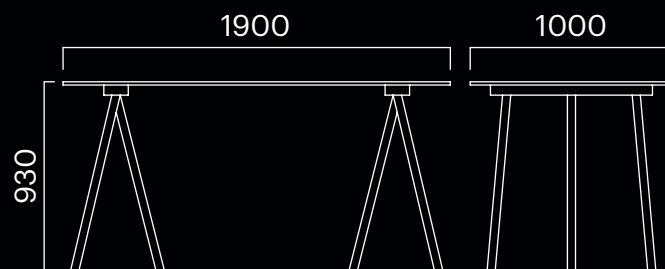

Oak ply tabletop
Oak trestle legs

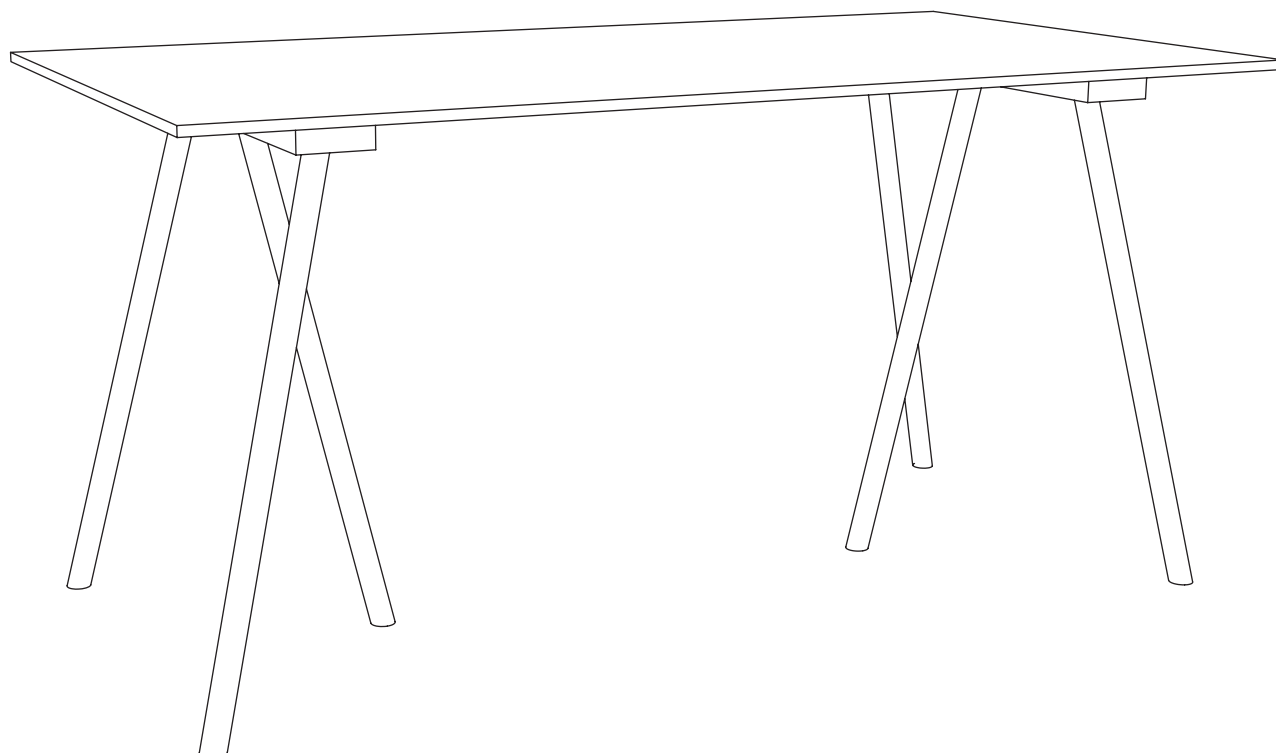

Finishes

Natural *
Custom finishes available on request.
Surcharge may apply. *

* Suitable for outdoor use.
