The For GOOD Foundation COVID-19 Response

The mission of The For GOOD Foundation is to source surplus crops and manufacturing capacity and turn it into GOOD nutritious food for those who need it most. This allows us to provide food banks with a secure and low-cost stream of products at a cost that is far below what they would normally purchase. Further, generous donations will allow us to deliver products to shelters and missions at no cost. The For GOOD Foundation is a unique not for profit organization with no salaries or overhead which allows us to direct 100% of ALL donations back to the cause.

To-date, The For GOOD Foundation has secured \$2.2 million of food for **Food Banks Canada** and **Windsor Help Centre**. This means that over 3.5 million units of The For GOOD Foundation tomato soup, baked beans, kidney beans, pasta sauce, and pasta shapes are being distributed to those who need it most through food banks across Canada.

Thank you to our For GOOD partners who have been instrumental in helping The For GOOD Foundation develop and execute our mission:

Stikeman Elliott
