

# Accelerate your Network with Wi-Fi 6

## Announcing new solutions

When it comes to network access, user demands are ever-growing. On top of that, 5G and Wi-Fi 6 are re-defining the branch and campus network landscape.

Welcome to Cisco's new wired and wireless solutions that are fast, secure, and seamless. These Access Solutions will drive new experiences, such as increased performance of Wi-Fi 6 access points and the simplicity of the new Catalyst 2960L-SM.

Cisco is ready to exceed your expectations by delivering a better user experience and network performance.

Check out Cisco's current promotions and offers that not only include access, but secure SD-WAN as well. Find Wi-Fi 6 products within the dynamic bundles offer.
