
The Next Level

Motion Sensors

- Creating Coverage Zones

Motion Sensor – Kitchen/Dining

- The challenge is to offer lighting control that isolates the Kitchen and Dining Areas and does not respond to the adjacent living room area.
- Use NCZ-3043 Ceiling Motion Sensors to create distinct zones of coverage.

Motion Sensor - Kitchen

- **Selling Points:**
 - ✓ “Hands-free” Lighting
 - ✓ Invisible to User
 - ✓ Energy Savings
- **Installation:**
 - NYCE Ceiling Motion Sensor
 - Control4 Dimmer
 - Composer – Events to Actions
Timer and Conditional
 - Sensor against kitchen wall creates kitchen “zone” out to island counter-top

Motion Sensor - Dining Room

- **Selling Points:**
 - ✓ “Hands-free” Lighting
 - ✓ Invisible to User
 - ✓ Energy Savings

- **Installation:**
 - NYCE Ceiling Motion Sensor
 - Control4 Dimmer
 - Composer – Events to Actions
Timer and Conditional
 - Sensor near dining room windows
creates “zone” covering sitting area
