

Venture Faculty

Cookie Policy

SIA "HALOM HOLDING" (hereinafter referred to as Venture Faculty) uses cookie files to improve the functionality of its official website <https://www.venturefaculty.io/> (hereinafter referred to as the site), improving the usability and effectiveness of the user experience. By using this site, you consent to the placement of cookies on your device.

What is a cookie?

A cookie is a small text file that is stored on a user's device while browsing a particular site. Please note that Venture Faculty collects anonymous cookies that do not allow to identify the user, respectively, the use of cookies does not imply the processing of personal data.

How do we use cookies?

Venture Faculty processes cookies in accordance with the specified goals:

- remember sections of the site that the user visited to provide visitors with interesting content and continue to publish topics relevant to the user;
- provide visitors with uniform navigation, checking and ensuring compatibility of the site with the version of the device and the version of the web browser;
- maintain statistics on how often users visit specific sections of the site; site developers use these data to improve the usability and performance of the site.

Venture Faculty will only use cookies for the purposes specified above.

What types of cookies does SIA "HALOM HOLDING" use?

Venture Faculty processes the cookies following below, depending on the period of use:

1. Session (short-term) cookies are deleted as soon as the user closes the web browser after accessing the site content. Session cookies remember what the visitor chose on the previous page to prevent re-entering information during the session. Venture Faculty uses session cookies to authenticate the user at the site by giving the site visitor a browsing session.
2. Persistent cookies are stored on the user's end device to determine his/her browsing sessions and to find out whether a connection between us and the user device was established before, as well as to identify the most popular sections of the site to offer a more efficient user experience and ensure device compatibility. As part of these tasks, the processor collects the following information: device brand (manufacturer), interface language, browser and operating system data.

The site uses third-party cookies, namely "Google" ones. Independent service providers use cookies that are stored on the end device to collect data about the user's navigation at the site, including determining the total number of visitors.
