

## Slot Bases

The IPG International Slot Bases, manufactured in Thailand. Feature a fabricated aluminium/steel or solid wood structure.

The wooden bases as covered in high gloss paint, powder coat with Laminate of Veneer finishes. The bases are a solid structure and designs to accommodate open access on the sides and rears. The opening at the front allows for easy access.

The aluminium/steel bases come ins an Aidonized finished which means they will not deteriorate or rust. The construction is lighter and more reliable than the wooden bases and allows for more versatility. Come in a flat pack case ready for assembling.
