WORK EXPERIENCE

Prosper
Director of UX Design | 2020–Present

Started and integrated a user research practice into our design and product development process. Established a hiring process and career ladder while growing the team, including designers, researchers and UX writers. Oversaw the launch of a new credit card product spanning multiple channels. Conducted UX design sprints to turn research findings into product ideas.

Intent
UX Manager | 2017–2020

Built UX practice from the ground up, working with PM's and engineers to integrate UCD into our product development lifecycle. Hired and managed a team of four designers and researchers. Integrated regular user research and usability testing into our design process. Development of new products and improvement to exisiting products resulted in direct increases to annual revenue of over $20 million.

Plume UX
Design Consultant | 2016–2017

Designed and managed building of multiple products for a continued education company for accountants and lawyers (CLE & CPE). Conducted primary reasearch, developed user journey maps and flows, designed wireframes, mockups and prototypes. Completed usability testing and oversaw development and QA, managing various remote teams.

Mantry Inc.
Co-Founder + Product Designer | 2012–2016

Designed, built, and managed a subscription based service selling American artisan food. Conducted primary research, built wireframes, mockups, prototypes and coded final product. Ran over 50 A/B tests to improve conversion rates from <1% to 4%. Managed contract designers, data analysts, and developers to complete company design projects on schedule and on budget. Grew business to $1MM+ in annual recurring revenue in 2 years.

Engineers Without Borders
Design Consultant | 2012–2013

Built a responsive wesbite for a multimillion dollar non-profit organization. Worked with stakeholders to determine needs and behaviors for the primary personas using the site. Worked with a multidisciplinary team to build plans, wireframes, mockups and prototypes for the new website. Conducted final QA and revisions.

Ethical Ocean
Co-Founder + Product Designer | 2010–2012

Managed product design and implementation, including research, wireframes, mockups, prototypes, usability testing and QA. Designed and built our mobile website (HTML5 + CSS3) in entirety.
