Educational Project Leader & Content Developer for Sapienship –
a social impact company founded by Itzik Yahav and Prof. Yuval Noah Harari

Sapienship is inviting applications for the position of Educational Project Leader & Content Developer, either as a full-time or part-time appointment. This is a new role that will focus on driving forward the company's partnerships with educational bodies, as well as creating engaging, accessible and thought-provoking educational content. This content will include lesson plans and workshops for adults and students (at both middle and high school levels). For example, short introductions to academic disciplines from a fresh macro-perspective, activities that explore contemporary challenges (like employability and privacy), etc.

Core Responsibilities
- Building a strategic plan with global reach for the educational department.
- Liaising with potential partners on developing and distributing workshops.
- Developing educational materials from inception to completion.
- Creating promotional materials to market educational initiatives globally.
- Collaborating closely with the wider Sapienship team to align project development with the company's full portfolio of initiatives.

Basic Requirements
- Experience of +3 years in developing engaging educational material – or comparable content in another field – that was successfully implemented.
- M.Phil, M.A or Ph.D. degree (or equivalent) in the humanities or sciences.
- Evidence of academic excellence.
- Experience of 2-3 years in leading and managing projects.
- Excellent written and spoken English, at native level.
- Experience of creating design briefs, storyboards, scripts, and knowledge quizzes.
- Good proficiency in Microsoft Office Suite, Adobe Acrobat Pro and Google Drive.
- Familiarity with the fields of instructional design, instructional technology, and information technology is an advantage.
- Experience with multimedia authoring tools (such as Adobe Creative Suite, Articulate 360, Camtasia Studio) is an advantage.

1

- Experience of integrating gamification elements into self-paced learning experiences, as well as graphic design and animation skills, is also an advantage.

Additional Requirements

- Passion for promoting critical thinking, science, history, and other disciplines.
- Proven ability to present information in a creative, fun and clear way.
- Attention to detail and quality in content creation, and an understanding of the importance of scientific rigour.
- Ability to work productively under pressure and to deadlines.
- Ability to work well both independently and as part of teams / partnerships.
- Ability to interact at the most professional level with high-profile global organizations
- Consistent use of discretion, judgment, and initiative.

Additional Information

- This is a permanent position that is offered as either a part-time appointment (with 2 to 3 regular working-days per week) or a full-time appointment (depending on the candidate's availability).
- A successful candidate who does not reside in Israel, will work from home.
- A successful candidate who resides in Israel can either work from home or at the company's offices in Tel Aviv.

Required Application Documents (to be sent to email Jobs@sapienship.co)

1. A cover letter that includes the candidate's preference with respect to the appointment: full-time or part-time. If opting for part-time, the candidate should indicate which days of the week they are available.
2. A resumé.
3. A written sample of learning material or other relevant material developed by the candidate.
4. As part of the recruitment process, you might be asked to submit an assignment that will be sent to you by the recruitment team.
