

Copperstate Farms Introduces Medical Cannabis Brand DNA Genetics to Arizona Wholesale Market

Copperstate Farms holds an exclusive license to cultivate, manufacture, sell, and distribute DNA Genetics branded cannabis products in Arizona

PHOENIX, Oct. 08, 2020 (GLOBE NEWSWIRE) -- Copperstate Farms Management, LLC, a vertically integrated cannabis company based in Arizona, recently expanded its wholesale offerings to include award-winning, international cannabis brand DNA Genetics.

Copperstate Farms holds the exclusive right to cultivate, manufacture, sell and distribute DNA Genetics products in Arizona. In 2019, the brand introduced 12,000 seeds to Copperstate's cultivation facility, ultimately refining fifteen premium strains for market that officially debuted at Sol Flower dispensaries in Sun City and Tempe, Arizona.

"We are delighted at the high level of quality we have been able to achieve in our greenhouse. As the top wholesaler in the state it's important we deliver a diverse selection of sun-grown, full spectrum flower to Arizona patients. Given that, we are thrilled to expand the distribution of DNA Genetics to all our wholesale customers," said Copperstate Farms CEO Pankaj Talwar.

Top phenotypes under wholesale at licensed Arizona medical marijuana dispensaries include: 4 Prophets, Skywalker OG, Kosher Dawg, Lemon OG, Holy Grail Kush, Miss DNA, and Recon. Fifteen dispensary locations have already added DNA Genetics products to their retail offerings.

Established in Amsterdam in 2004 by Don Morris and Aaron Yarkoni, DNA Genetics has won more than 200 industry awards worldwide. Over the last decade, the brand has built a reputation for formulating top-tier cannabis strains and developing proven genetic selection and breeding techniques.

"Don and I are excited to finally get DNA products out to more people in the Arizona market through Copperstate's wholesale channels. We can't wait to offer our flower to the entire state of Arizona," said Yarkoni, Co-Founder and Co-CEO of DNA Genetics.

Copperstate Farms is home to the largest indoor cannabis greenhouse in the U.S. at 1.7 million square-feet with 40 acres under glass. The company currently has 50 medical cannabis strains in development and 50 in production.
