

The Expansion Continues - SPARFELL's San Marino AOC

Press Release
Geneva, 02. December 2020

In SPARFELL's fleet: The Bombardier Global 6000

SPARFELL San Marino, a subsidiary of the Swiss aviation group SPARFELL, recently received its aircraft operator certificate (AOC) from the Civil Aviation Authority of the Republic of San Marino.

SPARFELL CEO Edward Queffelec explains, "Offering high regulatory standards and understanding the transactional needs of the industry, a San Marino AOC is another solution SPARFELL is proud to offer to business jet owners for

aircraft registration, asset management and commercial operation. After the 2019 acquisition of LaudaMotion Executive and the recent acquisition of Speedwings' air operator activities, the San Marino AOC is another step towards extending our aircraft management offers, to ultimately better serve our customers."

The first SPARFELL San Marino AOC aircraft in management is a Bombardier Global 6000, carrying up to twelve passengers. Based in Africa, it is available for charter worldwide, further expanding SPARFELL's charter aircraft solutions.

SPARFELL currently holds AOCs in Austria (IS-BAO certified by IBAC), France and now San Marino. With headquarters in Geneva and now new offices in San Marino, Sparfell Aviation group manages a fleet of 27 aircraft for charter and private use. Some of the aircraft models on the certificate include the Bombardier Global 6000, Challenger 350 and 605, Gulfstream G650ER, as well as Embraer Phenom 300 and Praetor 600, catering to any need in regard to range and number of passengers.
