

SPINOSAURUS

Create a story around this robo-spinosaurus. Who built it? For what purpose? Is it a he or a she? Is it old or young, friendly or protective? How many meters can it jump? What kind of food is it's favorite? Is it alive today? Where did it or does it live?

ROBO SQUID

Create a story around this robo-squid. Did it form organically from parts lost and floating in the ocean, or was it created by a benevolent scientist? An evil spy? Does it have special powers? Is it a he or a she? Does it prefer to be alone or hang with friends? What is the heaviest thing it ever caught in its clamps? In actual size, is it taller than you?

TRICERA-BOT

This Tricera-bot lives at, and guards a junkyard where old cars go to be smashed and recycled into different metal pieces and parts. Last night, there were intruders at the junkyard. Write a story about how Tricera-bot handled them. Were they “good guys” or “bad guys”? What did they want from the junkyard? Did they get it? Did Tricera-bot need help interacting with them?
