

# **XdHacks Mini**

## Sponsorship Package

# What is XdHacks Mini?

XdHacks Mini is a **highschool hackathon** nonprofit guiding students globally to becoming successful tech-entrepreneurs. Our holistic focus on developing an **interdisciplinary mindset**, soft skills such as presentation a pitch, in addition to coding, sets us apart from other Hackathons. We believe entrepreneurship, alongside having a deep foundation within a hard skill like coding, sets students up best for the future.

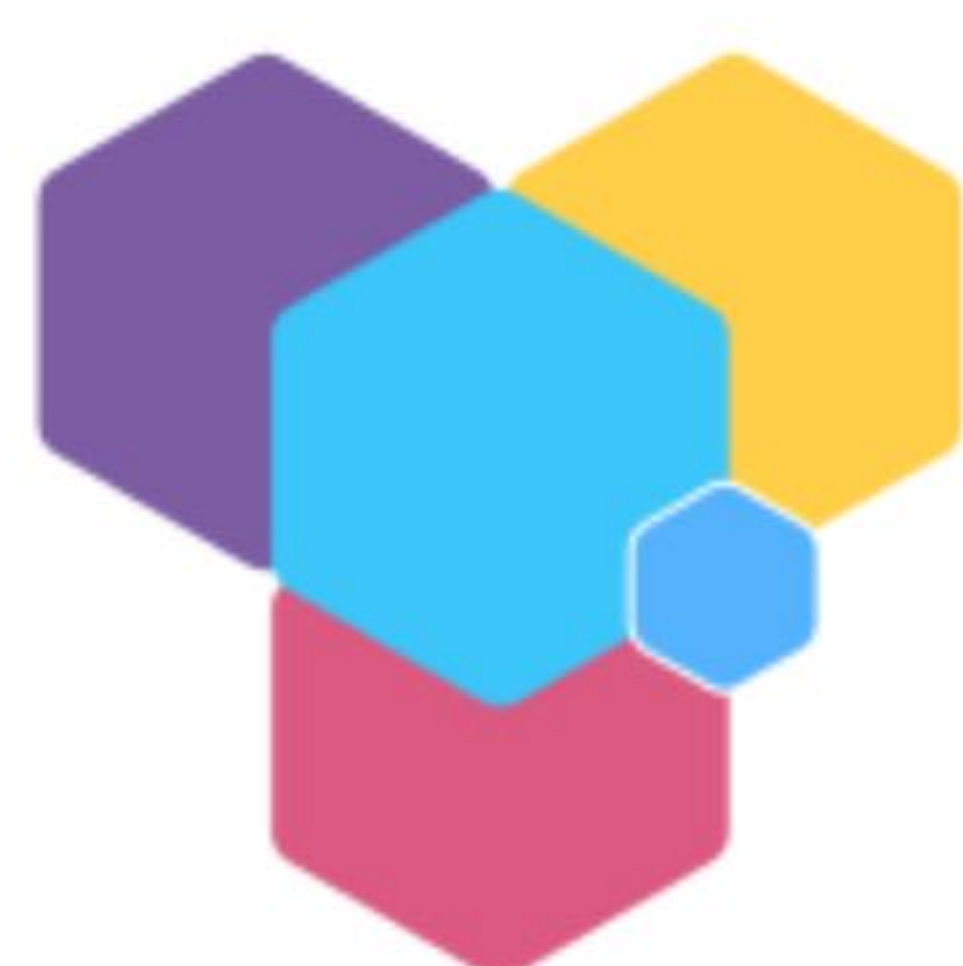

---

## At our events students

- Create a prototype product using coding skills, design skills, and any other applicable interest
- Present to a panel of industry professionals in a start-up fashion
- Build Networks with companies, organizations, and other students

Besides hosting coding competitions, XdHacks Mini creates an enriched space for students to grow and learn through:

- Inviting guest speakers on topics ranging from Design Thinking to Resume building.
- Giving students time to network with local clubs, learning opportunities, related academic competitions, and volunteering opportunities.

# Why sponsor XdHacks Mini?

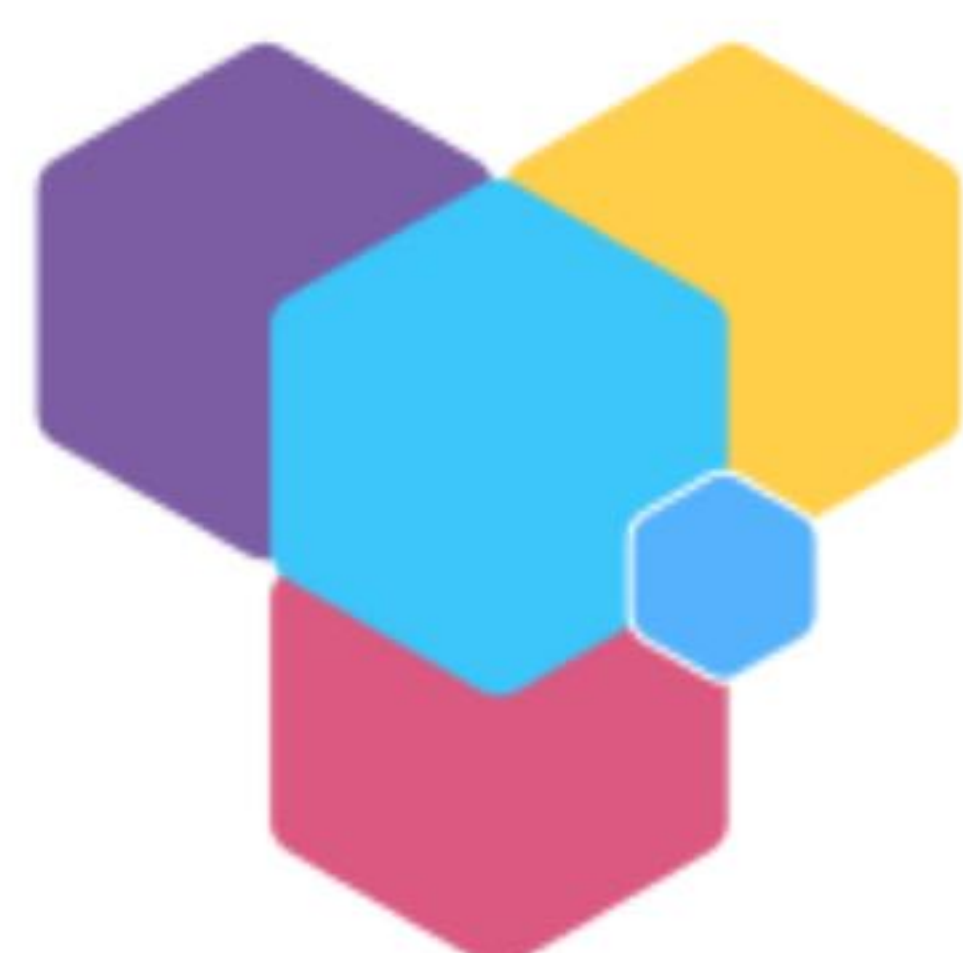

XdHacks Mini helps high school students develop creative and problem-solving thinking skills, nurture a passion for technology, and begin the foundations of networks with professionals in related technology industries.

Hackathons require extensive problem-solving, creativity, communication, and collaboration between team members who contribute a variety of skills including programming, marketing, design, business, and so on. It's a great way for students to demonstrate their interests and skills in an academic manner while having fun engaging competitively.

Students are encouraged, through the themes of our events, to use their various skills mentioned above to create an original product to solve a real-world problem.

---

Sponsoring this event is directly **encouraging** and **inspiring students** to take a lead in **developing technology in tomorrow's world**. Students at this event leave with a new network, a new skillset, and a renewed passion for entrepreneurship, computer science, design, or any other aspect involved in the Hackathon process.

# In what forms can sponsorship take place?

Sponsorships **don't** have to be explicit monetary donations, instead, there are various ways sponsorships can take place.

---

For example, sponsorships can include:

---

Additionally, sponsors can send representatives to speak at workshops and to be judges during the event.

# Sponsorship Levels

	Sponsorship Value (CAD)		
	Bronze (\$300+)	Silver (\$700+)	Gold (\$1000+)
Your logo on XdHacks Website	✓	✓	✓

# Where will your money go?

Money goes directly to the participants. Our parent company, XdHacks, is committed to maintaining a nonprofit mindset while hosting all of our associated events. All funds go towards creating the best possible experiences for students, mentors, judges, and sponsors, which includes venue cost, food, prizes, merchandise, and other associated event costs.
