

You want to exercise your skills in one of Germany's best-known Climate Change Start-ups? Apply now at right. based on science as

## Full Stack Developer (f/m/d)

(from September 2020 / Full Time / permanent)

right. based on science GmbH (right.) is a Climate Change Start-up based in the aspiring East End of Frankfurt. Founded in 2016, right. developed the X-Degree Compatibility (XDC) Model to calculate the impact a company, a portfolio or any other economic entity has on global warming (“temperature alignment”). The results are expressed as tangible degree Celsius values. The aim: to bring maximum transparency on climate-related risks and opportunities to the market.

With our interdisciplinary team of over 25 experts, we help our clients (e.g. companies, banks, asset managers) to analyse and understand the climate impact of various economic activities, fulfil reporting requirements, and employ scenario analyses to shape their climate strategies and inform their investment decisions. In 2020, right.'s work was awarded the German Next Economy Award.

As a fast-growing young company our Team expands rapidly and we are looking for an engaged and experienced developer, who shapes our future with us.

### These are your responsibilities:

- Development of Software solutions, that help companies to understand their impact on climate change and to take measures to reduce this impact effectively
- Provide support to the team as well as the Product Owner
- Discussion, presentation, and development of technical solutions
- Pair-Programming, code reviews and ways to grow together with the Team
- Support other developers and non-technical people to understand and apply the technical solutions to their daily jobs

### These are your qualifications and skills:

- A passion for Software development and solutions
- At least 2 years of relevant experience
- Comfortable working on the Frontend as well as the Backend and the Database (Full-Stack)
- Independent, detail-oriented and structured way of working in an Agile and dynamic environment

- Setting high standards for your own work and wanting to constantly develop your skills
- the desire to share your acquired knowledge with the Team in form of Reviews and Pair-Programming sessions
- The desire to constantly learn and the joy of being part of something new
- excellent communication skills in English and at least a good understanding of German
- enjoy working together in a team and sharing your own ideas

**right. offers you:**

- The chance to take on responsibility early on and to actively help establish our young company
- Exciting and challenging tasks in a dynamic work environment
- a modern Tech-Stack and DevOps
- ample room for your personal and professional ambitions
- an experienced, multidisciplinary, and international team, enthusiastic about sharing their knowledge and ideas
- a creative and relaxed work atmosphere in our modern loft office
- a culture of freedom that promotes innovation, courage and character
- a competitive wage

**Application**

We are looking forward to your application. Please send an e-mail with your CV, motivational letter and references to our HR manager Linda Schultze ([l.schultze@right-basedonscience.de](mailto:l.schultze@right-basedonscience.de); 0177 60 16 833).
