

You want to exercise your skills in one of Germany's best-known Climate Change Start-ups? Apply now at right. based on science as

Project Manager - Corporates (f/m/d)

(Full Time / permanent / immediately)

right. based on science GmbH is a Climate Change Start-up based in the aspiring East End of Frankfurt. Founded in 2016, right. developed the X-Degree Compatibility (XDC) Model to calculate the impact a company, a portfolio or any other economic entity has on global warming (“temperature alignment”). The results are expressed as tangible degree Celsius values. The aim: to bring maximum transparency on climate-related risks and opportunities to the market.

With our interdisciplinary team of over 28 experts from 12 nations, we help our clients (e.g. companies, banks, asset managers) to analyse and understand the climate impact of various economic activities, fulfil reporting requirements, and employ scenario analyses to shape their climate strategies and inform their investment decisions. In 2020, right.'s work was awarded the German Next Economy Award.

As a fast-growing young company our Team expands rapidly and we are looking for an engaged and experienced coordination talent, who shapes our future with us.

This is your contribution:

You drive forward ambitious CEOs, sustainability as well as risk managers by successfully planning and controlling jointly carried out, visionary projects at right.

Together with your project team and our customers, you will develop innovative products that further anchor our Temperature Alignment metrics in the real and financial economy and identify growth opportunities for our young company.

As the main contact person, you care about a transparent and smooth exchange with our customers as well as with the entire project team.

Being a passionate co-ordinator, you know how to recognize the potentials and strengths of your team members and how to use them skilfully so that the entire team is motivated and capable of successfully completing the project.

Thus your tasks include:

- accompanying the entire project process from initiation / conception to lessons learned workshops,
- creating requirement concepts and use cases in coordination with our Sales, Business Development and Product Development Teams as well as with the involvement of our customers and partners,
