

**JOIN OUR CHAT
REVOLUTION !**

Humanise.AI 

We generate **£30,000 of sales leads, every month, for one of our customers.**

Up to **65% of people we send proactive messages to, action them.**

We automate up to **92% of customer service enquiries.**

Wish these examples were you? READ ON...

The average business waits for its customers to contact it – by which time, they've probably already got a problem.

But why be

AVERAGE?

We take chat to **the next level –**

** messaging your customers on events,
eg to prompt them about their hotel
checkin tomorrow.**

We make customer service

PROACTIVE

But...

1 * **Is the number of minutes customers will wait for an answer...**

So, what if it's after hours 🕒, or if your team is just busy 🤯 ?

We use AI  to give **instant**  answers,
so your business is responsive – even
when your team is busy  or sleeping 

Our AI knows its limits & gets your team
  to join the chat when needed. But
we're good – only **~8%** ask for that.

Up to

65%

**Of customers that we proactively
message, respond – proving that demand
exists to communicate this way.**

Because we're proactively messaging customers when something happens, we can make **sales offers that are highly relevant.**

~10%

of customers make an automated purchase when we do that 

We capture leads for customers who express an interest in a purchase 🤔

A hotel 🏨 chain we work with is receiving ~£30,000 of sales leads from us every month, for each of its hotels! 💰 💰 💰

And finally, we gather feedback from customers, identifying what they like, dislike and desire and capture missing data – like a phone number 📞

We do this every day of the year 📅, with no staff 👩 👨 involvement.

We get these results using our own chat  platform - now on its 2nd generation, having processed **over one million messages.**

It's the only one of its type - providing a **complete end-to-end solution for proactive messaging, across both humans   and AI **

**Our technology can transform any business,
but we've built particular capabilities for
accommodation providers:**

Hotels & Hostels

Universities

Offices

And others
