VISUALLY DETERRING UNWANTED GUESTS

Amplimesh® grille window and door screens offer you peace of mind against uninvited visitors. They not only visually deter unwelcome guests, but offer a high quality physical barrier against anyone that does attempt to break-in. With insect mesh as a standard feature on all Amplimesh® screens, homeowners are able to enjoy open doors or windows without enticing in mosquitos, flies or thieves.

With over 50 years of experience in the NZ security screen market, Amplimesh® is recognised for its superior quality and longevity, reassuring thousands of customers that their security is taken care of. Security screens from the Amplimesh® range are available in a variety of grille styles, with both the grille and frame colour matched to existing joinery.

*Fibreglass insect mesh excluded
