

Dunn Preparatory School @ Woodland Early Childhood Center

Woodland Early
Childhood Center

Application for Admission

THIS DOES NOT GUARANTEE ENROLLMENT

The admissions process begins with an application, a review of school records and a meeting to discuss the best placement. We want to ensure that Dunn Preparatory School will be the best educational choice for your child and we believe that can be accomplished best through open conversation about the needs of your child, our methodology, curriculum and resources. We are not equipped to meet every child's educational need, and so we want to make sure that what we can provide will be the best for your child. However, when resources and curriculum are matched to meet your child's need, academic success is achieved. We may offer some occupation and speech therapy, however, it is generally not enough to serve children with special needs that are exhibited through behavior and social interactions, and/or autism spectrum. We want to discuss your child's strengths and challenges and complete an evaluation to determine if we are a good match. This meeting will help clarify expectations so that parents and the school can be confident that we share similar goals and that we have the resources for your child to excel.

The admissions meeting can be scheduled when all of the following have been received:

- Application for admission
- Standardized achievement test results
- Current and previous year report cards
- School Academic Records
