

# D3, INC.

DEFINE, DESIGN, DELIVER

Technology Owners Representatives

# CAPABILITY STATEMENT

D3, Inc. provides consulting guidance, design documentation and construction administration services for the implementation of D3 Inc's ELV (Extended Low-Voltage) disciplines specializing in professional digital audio, video, control plus information technology and lighting systems.

With broad ELV products solutions knowledge and visibility to future product and solutions direction, D3, Inc. practices an open source approach towards the many technologies in the marketplace and recommends the best alignment of technology to client needs. D3, Inc. business model provides solution and product advice that is not affected by competing agendas: no exclusive relationships, no product markups or percentages and no short-term thinking.

**Type of Business:** Technology Design Consultants

**Type of Work:** Extended Low Voltage Systems Design & Consulting (Audio/Video/IT/Lighting)

**State of Incorporation:** Nevada (S-Corp)

**Licenses:** Clark County / City of Las Vegas / State of Nevada

**Established:** 2014

**Direct Contact:** Michael Epstein - Principal

**Email:** mepstein@D3ELVNV.com

**D:** 702.326.5700

**DUNS#:** 081235031

**NAICS:** 541310, 238210, 541490

**PSC:** C211, C1JA, C1JZ, C1F2, C1FE, C1FD, C1FB, C1FA, C1EZ, C1DZ, C1CZ, C1CA, C1BE, C1AZ, C1AA

## OUR SERVICES:

### AUDIO VISUAL

- IP/digital distributed audio & video systems
- Conferencing technologies
- 3rd party control systems
- Production / DJ / stage entertainment infrastructure
- Digital signage systems

### INFORMATION TECHNOLOGY SYSTEMS

- Copper & fiber optic infrastructure
- Telecommunication control center design
- Wireless networks (WiFi)
- Surveillance
- Security

### LIGHTING CONTROL SYSTEM DESIGN

- Interior, architectural & entertainment lighting controls
- Integrated lighting controls into 3rd party applications
- Lighting system submittal review and qualification

## DIFFERENTIATORS:

- Provide 99% shop drawings
- Optional construction administration plus (CA+)
- Product agnostic
- Complete extended low voltage solution
- Open source technology
- Communication link between related disciplines
- Technology owners representative
- 50+ years of; integration, low voltage design, Electrical engineering design and project Management

## SOME PAST & CURRENT CLIENTS:

- 5G Studio
- Avarrus Studios
- Bergman Walls & Associates
- BUNNYFISH Studio
- JCJ Architecture
- JVC Architects
- KGA Architecture
- PGAL Architecture
- Manning Architecture
- Marnell Architecture
- MGM Resorts Design & Development
- MSA Engineering Consultants
- Novus Architecture
- NV5
- RAFI Architecture
- SH Architecture
- Stonehill Taylor Architecture
- Trident Construction
- YWS Design & Architecture

## MARKETS SERVICED:

- Commercial
- Conference & Convention Centers
- Education
- Government & Municipal Facilities
- Health Care Facilities
- Hospitality & Gaming
- Native American Gaming
- Religious Facilities
- Restaurants & Nightclubs
- Retail
- Sports & Entertainment Venues
