

PAST & PRESENT PROJECTS

HOTELS & CASINOS

Osage Casino

- City - Tulsa, Oklahoma
- Project Owner - Osage Nation
- Project Architect - Marnell Architecture
- The Osage Nation tribe has just completed a ground-up construction project; Osage Casino which including 80K square feet of casino, 20K square feet of meeting and convention space, 140 room hotel, pool, and 2K seat event center. D3, Inc. had the opportunity to be brought in to educate ownership of a centralized IP distribution audio video system which incorporated the various requirements previously denied at their six other properties that limited production and added additional operational expenses. D3, Inc. provided a centralized control system design that allows complete automation of the design systems allowing management to focus on more important responsibilities, their clients.
- Project Dates - 2016-2018

Park MGM & NoMad

- City - Las Vegas, Nevada
- Project Owner - MGM Resorts International
- Project Architects - Marnell Architecture, RAFI Architecture, Novus Architecture, Stonehill Taylor Architects, BunnyFish Studios and Avarrus Studios
- After 22 years in operation, MGM Resort's Monte Carlo Hotel & Casino has undergone a rebranding as well as a complete renovation of the property. The transformation took on the name of Park MGM Hotel and Casino which included a Hotel within a Hotel concept which carries the name NoMad occupying the top 4 levels of the main tower. D3, Inc. was hired to centralize the technology systems spread out across 50K square feet of upgraded meeting space and ballrooms, 4 pools, 80K square feet of the casino floor and multiple venues. Utilizing D3, Inc.'s leading edge IP technology approach each venue was able to be brought online at various intervals keeping up with the demands of rebranding and remodeling this world-class property while in operation.
