

D3, INC.

DEFINE, DESIGN, DELIVER

Technology Owners Representatives

CAPABILITY STATEMENT

D3, Inc. provides consulting guidance, design documentation and construction administration services for the implementation of D3 Inc's ELV (Extended Low-Voltage) disciplines specializing in professional digital audio, video, control plus information technology and lighting systems.

With broad ELV products solutions knowledge and visibility to future product and solutions direction, D3, Inc. practices an open source approach towards the many technologies in the marketplace and recommends the best alignment of technology to client needs. D3, Inc. business model provides solution and product advice that is not affected by competing agendas: no exclusive relationships, no product markups or percentages and no short-term thinking.
