Magic Road detail

Preston Park

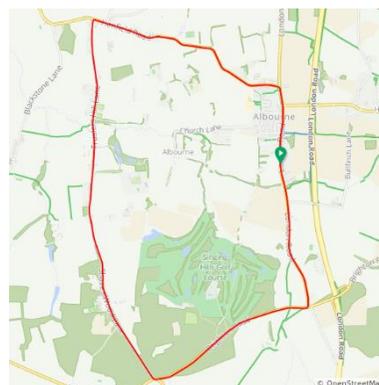

Preston Park Velodrome in Brighton is the oldest cycle track in the UK. Only has one properly banked corner IRL just before start/finish. Expect high speed laps of around 1 minute.

Albourne

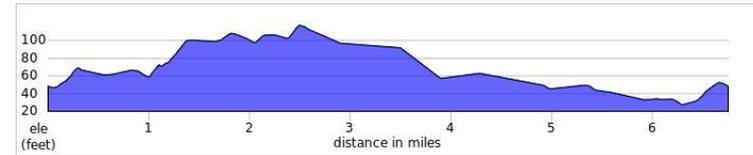

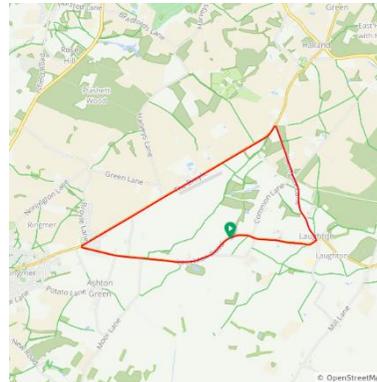

Sussex Revolution's race training and team riding circuit. Truslers Hill Lane provides the short punchy climbs and the finish is slightly up hill, so timing the sprint is important

Laughton

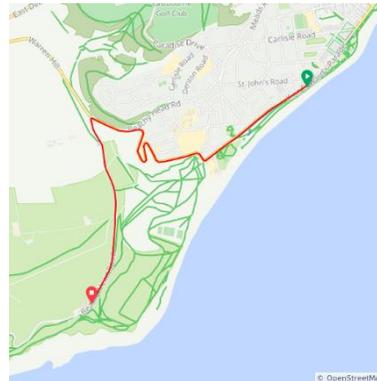

Laughton road race circuit often used by Surrey League racing in the UK, the infamous Lewes Crits series during the summer. A flat and fast course with most attacks on the section up Shortgate lane. The long back straight - 'The Boyle' is an exposed section where the wind forces riders to hide.

Beachy Head Hill Climb

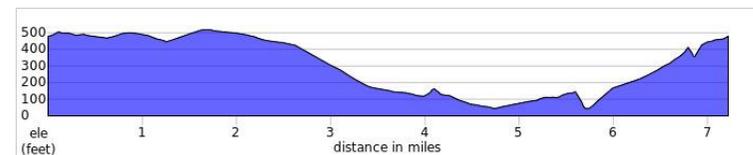

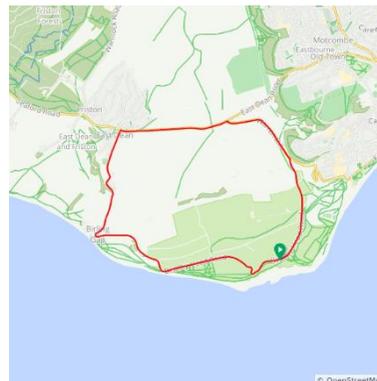

ITT hill climb often used in the Tour of Sussex. Starting in Eastbourne seafront you see the climb approaching. Average grade 3.1% but the steepest section is in the first 2.5k. Anything around 11-12 minutes is fast. Lars Petter Nordhaug holds the KOM at 7:57

Beachy Head Circuit

The famous Beachy Head circuit, that usually starts with the hill climb before joining the circuit. This tends to blow the races apart in the first 10 minutes, so this is just the circuit. You have a fast descent into East Dean, across to the [Birlinging Gap](#) before you start climbing.
