PassEntry

PassEntry is a digital access control company. Utilising Near Field Communication (NFC) PassEntry passes are accessible natively within mobile wallets and managed through our cloud-based dashboard.

PassEntry Attendance

PassEntry Attendance provides robust, secure and automated attendance management solutions for educational institutions.

Utilising PassEntry passes stored in mobile wallets, student attendance management is made easier, more efficient and accurate whilst eliminating Proxy attendance.

How It Works

Students simply present their PassEntry digital passes* to readers to mark attendance saving teachers and lecturers from time consuming manual roll calls.

Student timetables and electronic registers instantly reflect check-ins which can be interrogated by administrators for report generation.

*physical passes can also be used

Benefits

Save Time

- No manual registration

Hygienic / Carbon Neutral

- No physical card

Accurate

- Eliminate manual errors

Secure

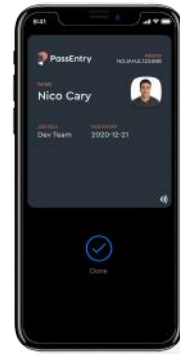

- Avoid proxy attendance

Safe

- Alert institutions and parents of absence

Identify Absentees

- Realtime absentee reporting

(works with third party register)

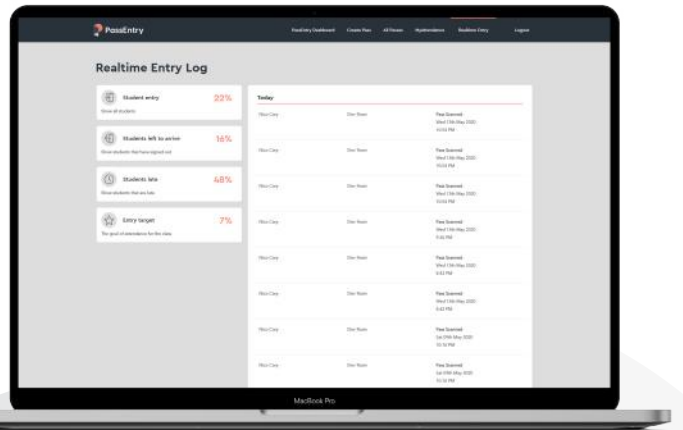

PassEntry

The Software

PassEntry dashboard integrates seamlessly with third party scheduling and registration programs.

PassEntry is both iOS and Android compatible.

The Hardware

PassEntry readers are either compact portable or wall mounted units. Choose from mains or battery powered PassEntry readers.

Security

PassEntry uses bank-level encryption. Mobile devices identify the user before allowing access to PassEntry pass, providing an additional layer of security.
