

## *Inversion Innovation*

# CHECK OUT THE LATEST & GREATEST, BOOTH 928

Greetings!

See for yourself why solar pros have been flocking (in droves) to Chilicon Power. We'll be at the show displaying our new and improved CP-720 twin inverter- the highest per module wattage in solar- along with our groundbreaking monitoring system, an all-in-one smart home hub.

If you're thinking about going to sunny San Diego but haven't pulled the trigger yet, perhaps these free passes will help: simply click the button below and use Custom Registration Code: ISNA2031882. And if you're already booked, great. Please stop by our booth and say hello.

Safe travels and hopefully we'll see you soon.

## 2020 CP-720 MODEL

With the new year comes new changes. Not only does Chilicon Power manufacture the only inverter to be CSIP certified, the company's excited to unveil the latest version of its industry leading CP-720. The improved 2020 model has integrated AC and DC cabling. This modification allows for quicker installs & a simpler ordering process. Quick and simple, that's the Chilicon way.
