Carriers of Light is a full-time Islamic school for grades Preschool through 6th. We focus approximately 60 % of the school day on Academics and 40% on Quranic studies (reading, memorization, and tajwid). In addition to Islamic Studies classes, character education and reminders about good manners are woven throughout the day. Arabic classes for all grade levels strengthen the Quranic foundation.

Academic classes focus on Language Arts, Mathematics, and Science, meeting and exceeding Common Core standards. Our small class sizes allow opportunities for differentiation and individualized attention. Our class sizes in early childhood cap at 10 students per teacher, and 15 per teacher in elementary school to ensure every child receives the attention they deserve. Enrichment classes include Art, Physical Education, Islamic Studies, and others. Our qualified and passionate teachers infuse Islamic concepts into academic lessons when possible. You'll find that over 65% of our teachers are specialized in their respective field, and over 80% of them have either a Bachelor's or Master's degree(s) in Education.

Arabic Grammar I

“Arabic Grammar Made Easy”

Do you feel overwhelmed by the thought of learning Arabic? Have you tried learning Arabic but have struggled with grasping the concepts being taught? How would you feel if you could be part of a program that actually makes this journey super easy, super exciting and makes you want to come back for more!

My name is Sana Khan and I have been teaching Arabic Grammar to children and adults for the past 4 years alhamdulillah. The curriculum that I use to teach is through the Bayyinah Institute. This is not affiliated with Bayyinah in any way but it is a program we will be following.

Please come join us in this summer in this amazing journey of learning and studying the Quran.

Testimonial

“My personal experience with Arabic has never been “fun.” Fun in a way kids my age would enjoy. This class really helps me understand the beautiful Arabic language and I think it couldn’t have been taught by a better teacher. While memorizing Quran I notice the emphasis on all these intricate Tajweed rules because of what this class has taught me!” - Maryam Age 13

“As a person who didn’t grow up reading or speaking Arabic, I have felt very comfortable in Sana’s classroom. She engages her students in a fun and interactive classroom environment. She truly loves teaching Arabic and consistently connects the study of the language to the Quran and lessons she has learned from her teachers. She moves at the pace of her students, and consistently encourages all of her students.” Edmund
